# ELEVAGE DE

# LA FICHADE

La Fichade farm was created in 2007, date of the arrival of Gaëtan on the exploitation which formerly contained only sheep. Marion, still in study, is on the farm at short time but brings back the first horses from her family breeding ( Arab endurance breeding of course ! ). In 2009, the first two foals are born, in 2010, the following 4 ...

We chose this place to raise horses and ewes because the “Causses” are emblematic of the breeding of purebred Arabian for endurance. Especially with Florac, a 160 Km race that crosses the farm. The large semi-mountainous areas are indeed beneficial to the development of the young endurance horse, which acquires a solidity and a metabolism adapted to the discipline. We have 600 ha for 300 ewes and 80 horses. 80 ha of culture allow us to be self-sufficient in hay and cereals for the entire livestock. We are here, really in the cradle of equestrian endurance, where it all started ...

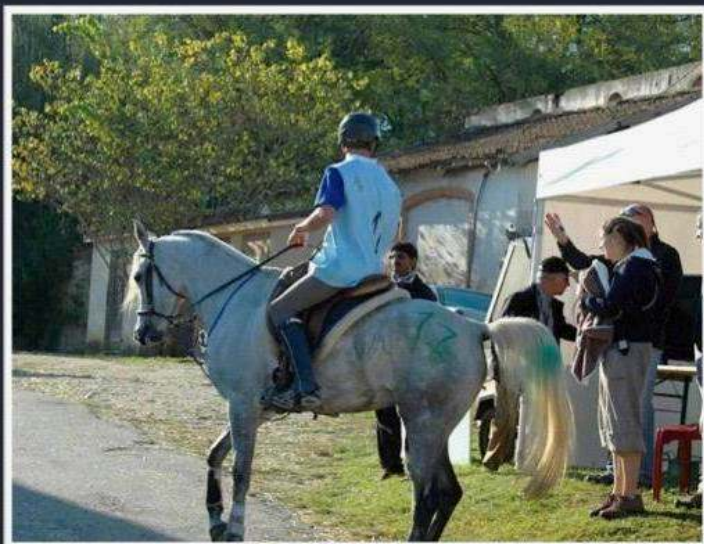

In 2010 the first results obtained are

1 <sup>st</sup> CIS **	70+2Km ALPE D'HUEZ	with CADJANNE
3 <sup>rd</sup> CEI**	130Km LANDIVISIAU	with MARIKA DE LACROIX
4 <sup>th</sup> CIS ***	2x100km PONTCHATEAU	with MARIKA DE LACROIX

The following years, the results continue to show promise, with the qualification of many horses, which were subsequently sold and the classifications at the mythical events of Florac and Montcuq to value our future broodmares:

10 <sup>th</sup>	CEI ***	2x100km MONTCUQ 2012	with CADJANNE
9 <sup>th</sup>	CEI ***	160Km FLORAC 2013	with CADJANNE
6 <sup>th</sup>	CEI**	130Km CHANAC 2014	with MISSOIYA DE GION
12 <sup>th</sup>	CEI***	2x100Km MONTCUQ 2014	with SOLEIL DE TAF
8 <sup>th</sup>	CEI***	160Km MONTPAZIER 2015	with MISSOIYA DE GION
11 <sup>th</sup>	CEI***	160Km FLORAC 2016	with MISSOIYA DE GION
3 <sup>th</sup>	CEI***	160km COSTAROS 2017	with MISSOIYA DE GION

**MISSOIYA DE GION** -

---

But in endurance it is necessary to be patient, the first products born at La Fichade begin today on the big tests. Some are placed in very good stables and we are looking forward to seeing them on the big deadlines.

In 2012, Marion passes her equine inseminator diploma and launches this new activity with good results. The year after in 2013 Marion & Gaëtan created the GAEC de la Fichade and hired an employee, increasing the workforce with a dozen births per year.

Few years after in 2017 they undertook the construction of a new building, partly dedicated to reproduction and development of the breeding activity, La Fichade offers on average 6 or 7 Arab stallions for breeding. About 50 mares are bred or inseminated on-site at the farm with excellent success rates.

In early 2018, Marion passes her "Head of Center" exam in equine breeding successfully. Henceforth, La Fichade farm will propose its stallions in refrigerated semen transported, and they are also planning to develop freezing semen and embryo transfer activities.

With the hiring of a second employee, Gaëtan develops the training center with the valorization of the young horses from La Fichade, to the competition. (About fifteen horses / year).

---

La Fichade has always been integrated in the networks of local breeders, collaborates on the boards of directors like : GECE, Persik Land, ACA etc... Since 2010, they also participated in the organization of important events in the discipline, such as the breeding competitions, or the "160 km" race of Florac, and the organization every year of interregional races for young endurance horses at the stud farm, the 1st weekend of August.

### *The choice of lines:*

Although integrated into the cradle of endurance where the stallion PERSIK reigns undisputed master, La Fichade still wishes to affirm its taste of the "Beautiful and good" arab horse (to use the current expression of A.C.A ). We love the "real" purebred Arabian! Our broodmare farm is thus firmly supported on the lines known as "Sultana" with the blood of MASAN, MAKLOUF & DERKOUCH. ( Marion is passionate about this lines and has always dreamed of meeting André Sultana). These lines, very present in endurance, even if not majority, show very strong qualities, and have the advantage of making horses versatile and very Arab! They form a real breeding base!

## *La Fichade : Yesterday & Tomorrow*

Of course, the partnership of La Fichade & D' ALAUZE Farm owned by Marie & Jean Claude MAURIN has allowed then to meet extraordinary people and to benefit from stallions and mares to the genetics renowned in endurance, a genetics unparalleled and already confirmed with the precious blood of PERSIK, FOREX, AZIA BINT DJEBELIA, ARQUES PERSPEX ... It is why La Fichade stud farm is therefore almost exclusively purebred Arab.

In 2014, they acquired the frozen semen of DJARNI DES FORGES (by TIDJANI) as well as AZUR DEL SOL (DUNIXI / DJELFOR) To introduce the blood of race horses and give speed to the future foals of their breeding.

In 2018, 5 stallions will be stationed at La Fichade (cf Pub)

Their two other stallions: NABOR EL MASAN will be stationed in Spain in 2018 and ENZO D'ALAUZE in Bretagne France at Alain Paul's farm.

La Fichade stud farm offers a wide selection of horses for sale, from the foals to qualified endurance horses. Our wish is to commercialize a part of the young horses because we can not all value them ourselves. We value first and foremost the mares and whole that are not intended for sale in order to confirm their endurance skills and to give value to their future products.

## BUSINESS AVIATION AIRPORT

Grenoble Isère Business Aviation Airport is the ideal gateway to the Rhône-Alpes region and its many stud farms.

The airport is located at the heart of the French Alps, offering easy access to the surrounding ski and mountain resorts, and is just 30 minutes' drive from Grenoble city center.

Passengers are welcomed in a dedicated VIP terminal, where our staff offer a high-quality service, customized to the needs of each individual client. Free WIFI, hot drinks and soft drinks are served while passengers relax.

Our concierge service uses handpicked quality partners to provide catering, helicopter and limousine transfers, and hotel accommodation.

Its focus on exceptional customer service has led Grenoble Isère Business Aviation Airport to become a pioneer in the implementation of unique security measures, which minimize intrusive screening controls whilst ensuring uncompromising safety standards.

Grenoble Isère Business Aviation Airport can be contacted for further information or for assistance with your travel plans.

## Polish and French Arabian Sire Lines

**1996:** In order to talk about prominent Polish sires in a coherent fashion it is necessary to look at the sire lines these stallions represent. To a breeder, the value of the mare is utmost but the stallion imparts those overall characteristics that indicate prepotency. A stallion is judged by the stamp he leaves on his offspring and this stamp is generated through the male successors of a pedigree. That is why the Poles kept very careful records and also why to this day we can trace characteristics back through the generations. When the Poles first began breeding purebred Arabians they had a large number of sire lines - 29 or more. All but 12 of these lines are extinct due the ravages of war. It is a testimony to the tenacity and dedication of the Polish people that there are even 12 lines available today. I will address 9 of these lines, two of which exist only on the distaff side of the pedigrees they are found in.

**2018:** Today I still think that sirelines are important, although I find it very interesting that French breeders do not follow the top line to its original Arab (or.ar.) but rather the dam line of the sire and of course, for hundreds of years now the French Arabian racehorses are the best pure blood Arabian racehorses in the world. Genetically it could be argued that just focusing on the sire's dam makes more sense but there seems to be good reason to follow the sirelines as well, mainly prepotency for speed. Wiking (Kuhailan Haifi, Celebes branch), Priboj (Koheilan Adjuze) and Manganate (el Hamdani el Samra) are examples of this.

**WIKING** By ETAP & WILMA By PIETUSZOK

**MANGANATE** By SAINT LAURENT & MANDRAGORE By DRAGON

Thoroughbred breeders and most other breeders that I am aware of, do record the upper sireline as well as the dam line, while giving the most weight to the dam line. Although the sire's dam is certainly of the utmost importance in order to maintain the quality of the sireline, although the sireline is also important because it provides the genetics that will give overall quality when combined correctly with compatible damlines. The French Arabian racehorse is a grand result developed over the course of 200 + years yet like many other specialized breeding programs the options have dwindled over time. For the sake of this article's format and focus I will be listing the main French racing sirelines of which there are only three remaining. It could be said that the primary role of the sireline after prepotency for speed and stamp (phenotype) is to maintain variety and genetic diversity.

## Line I ABU ARGUB II 1882 Slawuta.

This line is represented only by the excellent stallion Rozmaryn (born 1935). Rozmaryn was a noted sire of correct, athletic and "skookum" racehorses. His most famous daughter, Druchna produced three sires: Druzba, US & Canadian Top Ten Stallion, \*Druch and Dampol. Rozmaryn also sired \*Bandera, a Polish race winner and Top Ten Park horse, and Znachorka, who produced one of the most athletic Comet sons, \*Zbrucz. The only son of Rozmaryn used at stud was the stakes winner, Dramat (born 1958). To my knowledge this line exists only through female lines today.

## Line V BAIRACTAR 1813 Weil.

This is a most distinguished sire line and is greatly represented amongst some of the best Polish Arabians. Amurath Sahib (1932) is the main representative of this line and as a broodmare sire he dominates Polish breeding. Among some of his reknowned daughters are: Adis Abeda (dam of \*Ardahan), Amneris (dam of Aramis and Aquinor), Balalajka (dam of\*Bask), Arfa (who produced the 1st Dbl. Nat'l Ch.,\*Arwistawa.), Bandola (who produced \*Bajram, Bandos, Beatrice etc.), Darda (who produced \*Dar, Druchna & Dbl. Nat'l Ch.,\*Dornaba), Epigona (who produced Eunice, the dam of Eukalyptus & Europa, dam of undefeated racehorse, Europejczyk), and Estokada, his fastest daughter, 2/10 (8-0-0) Oaks, Crit.+5, who produced \*Eter, \*Esterka, \*Edycja, Eskapada, &Estebna. The last daughter listed of Amurath Sahib is Gwadiana who is a full sister to his most famous son, Gwarny and the dam of \*Gwalior. The sons of Amurath Sahib are equally as distinguished as the daughters. Arax was lost to Russia as a 6 year old but permeates many Russian pedigrees today. Zlota Iwa was the only daughter of Arax left in Poland and is responsible for the lovely "Z" line which produced 1984 European Supreme Champion mare, Zazula. Another son of Amurath Sahib and the great mare Forta, Equifor, set an unbroken 1955 Derby record. However the best son of Amurath Sahib (so say the Poles) was Gwarny. He sired many wonderful broodmares and the prominent sires, Gedymin, Argos, \*Polonus, Ballon, Pasat, \*Perkoz (Can Top Ten Eng. Pl.), \*Kirkor and \*Falat (US Top Ten Eng. Pl. and Polish race winner).

**2018:** Scott Cassel (Fallkon), Sally Lasater (Safari) Rob Kimber and this writer (Artian) are trying to keep Bairactar sireline from extinction with sons and grandsons of the magnificent stallion Falat and Sally also has a son of Gorec, "Algorec" representing the line through a different branch.

**ROZMARYN**

By ALMANZOR & DZIEWANNA

**FALAT** - By GWARNY & FORTA

## Line XV IBRAHIM 1900 Antoniny.

This is a very popular sire line in North America and has been propagated mostly by the famous stallion, Negatiw (born 1945). There are many sons of Negatiw being used today. In fact one farm in the US devotes their entire program to Negatiw and line breeds extensively so there is no fear that this line will ever die out. The most famous son of Negatiw is probably \*Naborr (born 1950). He was owned by Wayne Newton and Tom Chauncey and was a huge sensation when he was imported in 1963. Among his best offspring are \*Dornaba (dbl. Nat'l Ch.), \*Aramus (also Dbl. Nat'l Ch.) and Nat'l Ch. \*Gwalior. Besides \*Naborr, Negatiw also sired the prominent stallions \*Bandos, Wist, Buszmen (Nat'l Ch.), Cebion, Tinian, \*Etiw (US Top Ten) and \*Figaro (Polish Stakes winner). Negatiw stood at both Janow (1962-1968) and Michalow (1969-1973) Stud Farms and sired 19 sons and 54 daughters including Negotka, Bufa (dam of \*Hal Gazal) and Piersnica.

**2018:** I am shocked to report that this line is facing a vast reduction in representatives to the point of possible no return. This, one of the most popular sire lines to ever come out of Poland, is no longer thriving. Is it due to the popularity of the modern halter horse, perhaps, but it's time to wake up for those of you who do not wish to lose this line in a pristine heritage pedigree.

## Line XVI ILDERIM 1896 Slawuta.

This line is largely carried on through the stallion Miecznik, 1931 and his sons Doktryner (x Blaga by Kuhailan Zaid) and the prepotent Aquinor (x Amneris by Amurath Sahib). Aquinor, though at stud only two seasons, sired some very lovely and noteworthy horses: Elkana, 1972 US Nat'l Ch, & \*Elkin an outstanding double Nat'l Ch in 1971. \*Eleuzis, Elf, Excelsjor and Tryptyk are all very good sires and sons of Aquinor also. This line is noted for the combination of beauty and quality.

**2018:** it would have been wonderful to have this line through Nelkin, Elkanada or Eagle NA keeping the beautiful Elkin branch available but that opportunity seems long passed. Dancing Spirits Farm however has the stallion HS Antares by Feniks so there is hope for this line still through the "Elf" branch.

## Line XVII Koheilan Adjuze 1924 Babolna.

Noted for big valiant racehorses this line is quite restricted, unfortunately, coming through mainly one horse, the magnificent \*Pietuszok (born 1954). \*Pietuszok stood at Albigowa Stud from 1958-60 and at Janow from 1961-62 & also in 1968. The influence of this horse is greatly appreciated by today's breeders as it manifests itself in quality, beauty and speed. Notable sons of \*Pietuszok (pronounced Pee-a-too-shock) are \*Wosk, Derby winner, \*Bajram, Nat'l Ch., \*Orzel, Nat'l Ch. Racehorse and showhorse and the ever influential \*Gay Polka+++, Nat'l Top Ten Halter, West. Pl. etc. and sire of countless champions and excellent broodmares. \*Pietuszok's daughters are among the finest in Polish breeding, notably, Orla who won the Polish "Triple Crown" (Oaks, Derby & Criterium) and then distinguished herself as the dam of the phenomenal race mare \*Orgia. Also sired by \*Pietuszok are Eliza (dam of Elf), Wilma (dam of Wist), Beatrice (dam of \*Beander) and \*Harpia (Halter Ch. and dam of the excellent producer,

**2018:** Wotan (Eldans Wotan x MCD Sita by Mellon) is the only Pietuszok descendant that falls into the heritage Polish category. His line descends from the Derby winner Wosk. Irony that the most obscure Pietuszok son with only one Polish get should be one of the last men standing. Dancing Spirits Farm has a stallion (HS Filius) who represents this line through the wonderful stallion Gay Polka.

## Line XVIII KRZYZYK 1876 Jablanow.

This line is the oldest extant Polish sire line and is represented through two major stallions: Kaszmir (born 1929) and Trypolis (born 1937). Kaszmir was a most astonishing racehorse winning all but one of his 18 races plus six stakes races. Unfortunately the only son of his to be used at stud was Geyran . Geyran is famous for siring the first Double National Champion, \*Arwistawa. \*Arwistawa also equaled a track record in Poland and won the Oaks. The better known Trypolis sired many wonderful stallions and broodmares. His famous sons are: Faher (sire of Banat, Almifar, El Azrak & \*Barysz), El Trypoli, the unforgettable \*Mohacz and the very influential sire of Patterson Arabians, \*Cytrys. \*Cytrys' impact in North America has been very strong through such sons as, Starguard, Cygan I and Boccacio, all Champions and sires of Champions into four generations. This most important sire line is circling the drain to extinction as we speak. There is one stallion that this researcher has found in Colorado (Fiona's Shrek) that could continue it, and another at Dancing Spirits Farm (HS Its Tazer Time). I understand there are still straws available from the very successful racehorse NF Proof, representing the line through Banat.

## Line XX KUHAILAN AFAS 1930 Gumniska.

Stallions used to continue this line are Arcus, a great racehorse and sire of \*Branibor (who in turn sired the stakes winner \*Dunajec) and \*Bigotka a prominent broodmare at Patterson Arabians who produced six champions including \*Bihar, Boccacio, and Negotka, the dam of Negatraz. The most famous stallion of this sire line, however, is the ever popular, Comet (1953). Comet stood at Nowy Dwor 1958-59 at Janow in 1961, and at Michalow 1962-64. He died prematurely in 1964. The noteworthy sons of Comet are \*Bajdak, Can & US Top Ten, \*Carrador, Top Ten Park, \*Czester+, \*Meczet US Nat'l Ch. Park, \*Wiraz US Nat'l Top Ten Park, \*Zbrucz, US Res. Ch. Park, Ego, \*Dar, \*Flis and \*Elaborat a race winner. As noted from all of the Park victories Comet horses have extremely lovely natural movement at the trot, but they are not noted for racing ability. Comet also sired 23 broodmares among whom are \*Gydnia, \*Halali Enchanted, \*Bryzieda, Eunice, \*Muzaa & Warmia.

**2018:** How great it would have been to maintain this line through the branch from the racing champion Dunajec. In 1996 , I would have thought it inconceivable that this line may one day be in danger also but so it is, even through the Comet branch.

**DUNAJEC** - By BRANIBOR & DYSKA

**KASZMIR** By FARYS II & HEBDA

## Line XXI KUHAILAN HAIFI 1923 Gumniska.

This sire line is represented by the immortal Ofir and appears at least once in all Polish Arabian pedigrees. The two main representatives of this sire line are Witraz and Wielki Szlem. These two stallions are the lions of Polish Arabian breeding & their influence cannot be overemphasized.

Wielki Szlem (born 1938) was the stronger of the two stallions for racing. He sired such greats as Omar - Derbywinner, Czardasz - Derby, Dyska - Oaks, Kochana - Oaks, Don Lambro - Derby and the fabulous Czort (x Forta) 4/19 (13-5-1) Crit.+6. Czort's racing ability and beauty lives on through his sons, \*El Paso, \*Etan, \*Czortan, \*Krezus - Derby, Elfur - Derby and the magnificent \*Sambor who has founded a racing dynasty in North America. Wielki Szlem sired 51 broodmares among whom are: Mira (dam of Mir Said), Gwara (dam of Gwarny, Gahdar (dam of Abu Afas who sired Comet), Angara (dam of Arax), Bint Munira (dam of Badr Bedr), Dyska (dam of \*Dunajec) and Ellenai dam of Eleuzis, Elf and Elbrus).

(Witraz, (born 1938), though almost identically bred to Wielki Szlem was a completely different type. He sired 27 broodmares six of whom became dams of leading sires: Eleanora (El Trypoli), Bandola (Bajram, Bandos and Banat), Cosmosa (Cedr and Kord), Ellora \*El Azrak, Elfur, \*El Paso & \*Ellorus), & Egeria (Ego ).

Celebes is one of Witraz's notable sons. He sired the stallions, \*Druch, Etap (his best son according to the Poles), \*Rezus and \*Mellon 3/24 (8-10-2) AP. 2x +1 leading sire of many noted racehorses worldwide, \*Algomej - Polish Nat'l Ch., and \*Aloes. Celebes left 44 broodmares including four Polish national champions: Algeria, Ekstaza, Elewacja & Mitra). Celebes is a full brother to the legendary mare \*Caliope.

The most famous and wildly prolific son of Witraz is the leading show horse sire, \*Bask, himself a National Champion in 1956. \*Bask sired over one thousand foals and remains the leading sire of showhorses in North America. It is interesting to note that over 25% of all Arabians registered in North America have \*Bask in their pedigrees. Another highly successful showhorse and prolific sire of this sire line is the famous \*Aladdin, 1975 US Nat'l Ch. and sire of many National Champions, and a grandson of Witraz. \*Witez II , also a son of Ofir is the sire of Wiertez who can be found in the pedigree of DWD Tabasco. Though not as successful on the racetrack as Wielki Szlem's descendants, the descendants of Witraz dominate the showing.

**2018:** Still very well represented through Bask and somewhat through Celebes, mainly from WIKING

**WIELKI SZLEM** By OFIR & ELEGANTKA

**CELEBES** By WITRAZ & CANARIA

## Line XXIII Kuhailan Zaid 1923 Babolna.

This sire line is noted for strength, speed, substance and soundness. The stallion who represents it is Kuhailan Abu Urkub who sired two stallions at stud: Gabor and Grand. However, Kuhailan Abu Urkub is most famous for siring the immortal broodmare, Forta. Gabor sired Bajdara who produced \*Branibor and \*Bajdak. Gabor is also the sire of the Derby winner, Mir Said. The other son of Kuhailan Abu Urkub, Grand sired Kord (the sire of \*Escudo) and his full sister Czadra. This line finds prominence today, only through the females Forta, Mantyla (dam of \*Mellon), Mira and Bajdara.

**2018:** It is with a very happy heart that I can say through the efforts of Kelly Brown and myself this line has been resurrected. Michelle Soukup has the non-Bask Heritage bred Spartakus and this writer has his son, Allahn (6x Pietuszok, tail female, Arwistawa) in race training.

Of all the lines Kuhailan Zaid, KRZYZYK and Koheilan Adjuze lines would be the major losses to racing, endurance and Sport horse. Although it's not possible to work together to maintain these lines I hope bringing awareness up about them will help breeders to remember that we are meant to be responsible and think of the future, not breed what trainers tell us or directors/managers under pressure to make money. The combining of Polish and French Arabians is the most tried and true combination for racing.

The new Polish sirelines are of no interest from a racing perspective and have irreparably changed what once was the Polish Arabian. This article is meant for heritage breeders, breeders of pure blood Arab racehorses, preservation breeders and breeders of the pure French lines.

The Polish Arabian has survived through the hardship of two wars, a restrictive Communist regime and now economic disaster. Add to this the rigorous test of the racetrack and an unrelenting culling process and you have a recipe for a truly great Arabian: superior in conformation, athletic ability, and representative of any and all Arabian types, whatever you perceive them to be.

**2018:** The Polish Arabian as known prior to Palas is now for all intents and purposes extinct except for the efforts of some private breeders. The most Heritage Polish Arabians are in North America with a large number in Canada. Preservation breeders of note: Jeff Mosher, Marsha Parkinson, Renee Hunt, Sally Lasater, Sycamore Creek, Paramont, Billie Glosser, Dancing Spirits Farm, Roxanne Rogers and Rob Kimber. Firgive me if I missed you and don't hesitate to identify yourself and your program in the Facebook group Heritage Polish Arabians.

As a footnote I would like to add that pure French racing bloodlines seem to be represented through these major sirelines.

## El Maneghi (Cheri Bibi)

Is a force to be reckoned with in French racing and it's no surprise since this is a true Muniqi strain as described by Raswan, "long, rangy lines, narrow from the front and rear. Thoroughbred racehorse type. Many have course and common points which are contrary to the ideal Arabian characteristics. Lacking rounded outlines, they have drooping hindquarters and tails, points which are advantages to the racehorse. Wonderful legs, shortest cannon bone, straight hind legs, big joints, knees and hocks, long wide forearm. Built for speed with plenty of bone. The Darley Arabian was a Muniqi ." Incidentally the colour chestnut is associated with this strain. It's interesting to note that already Westerners were making judgement calls on what an ideal Arab should look like, imagine if The Blunts, Raswan et al decided that this was the only true Arabian type.... The beautiful import to the United States by Seahorse Farms, Haffir el Rimal represents this line.

### Telmese, or. ar. ( Tidjani), Telmese, bay, 1903

Imported from Syria to France by Quinchez in 1912 to Pompadour. Described as an "Asil from the Chammar Tribe".

This line is represented today by Tidjani, one of France's most successful sires and in North America by his son, the top racing sire, Ala Croixnoire, imported by Seahorse Farms along with Haffir el Rimal. Both stallions stood at Sharon Clark's Rigbie Farms.

### Hamdani el Samra (Latif) 1903

The most famous French sireline from Latif to Denouste, Baroud III, St.Laurent, Manganate to Djelfor, Dormane, Djendel. Kesberoy a son of St. Laurent sired Akbar etc. This is a very powerful, prepotent and dominant sireline. Raswan's description of the Hamdani: "Hunter type. Large and long but extremely masculine, big boned, big round joints and plain yet with long rounded lines. Excel in endurance, fatten quickly, easy to keep, great health. Greatest barrel and chest of all Arabians, more withers, straight hind legs, good jumpers of great courage". The description of the Hamdani strain has much in common with the real life and very close ancestor I was lucky enough to see, Manganate.
