Du Soleil Stud

*P*acing reserved for Arabian horses around the world has reached a very high level of professionalism in recent years. Two or three trainers stand out, winning almost all of the events in the specialty, and among the multitude of breeders who “succeed” in addition to the remarkable production of Mr BELLAUD, the DEYMONAZ family (DU SOLEIL STUD) stands out for its quality. and the regularity of the products it gives rise to. What better example to cite than AMYR DU SOLEIL, best 3-year-old in 2019 in France, holder of 6 races, 4 wins and 2 places including GR I, GR II and Gr III in 2019 & 2020. Once upon a time there was du SOLEIL STUD...

Du Soleil Stud

*****Yesterday :***

Our breeding is only purebred Arabians, he started in England based at Langham Hall Stud near Newmarket in the 90s, we cross with Polish, Russian and Tunisian mares. To make these crosses, we bought a stallion from Mme KOCH, MERLIN AL MAURY who was the half brother of TIDJANI, at the time the fashion stallion with DORMANE.

*****Victory of the past :***

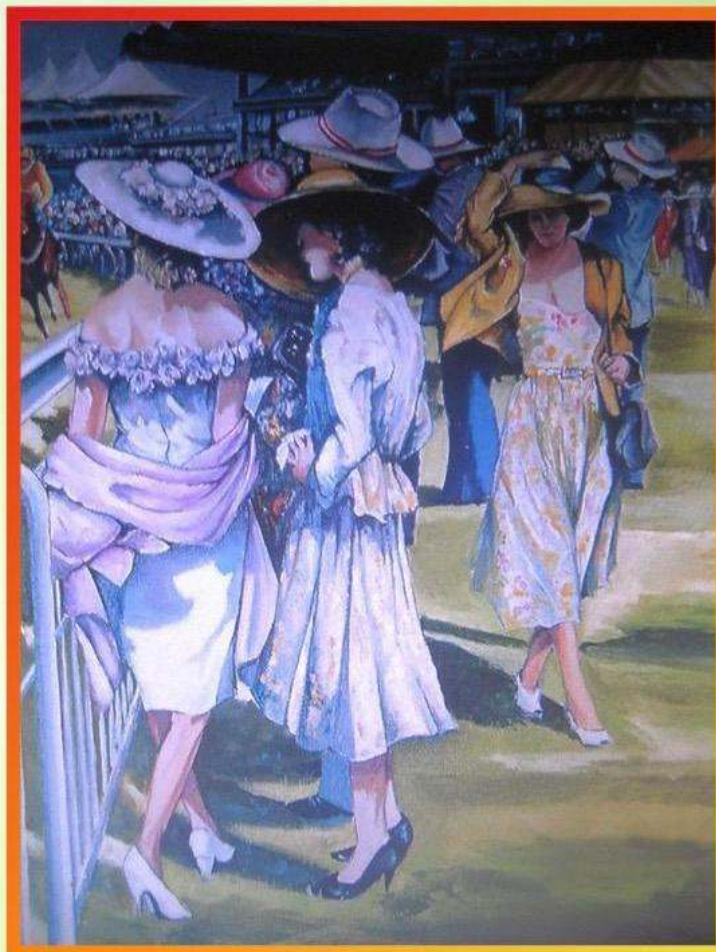

We had a lot of success on the British territory, best 4 years old, best mare ..., we also had good results with a homebred BENGALANT (BENGALI D'ALBRET & VERGALANTE), who after winning his first three races under the colors of James KIPPEN (the father of my wife Lisa) and rode by myself in Great Britain. Sheikh Hamdam Al MAKTOUM bought BENGALANT and won our first Group 1 as a breeder, the President Cup Gr.1 in Abu Dhabi.

However, the races in England are very limited and we quickly realized that the level in France was much higher especially during the International Shadwell Dubai Day in Newbury which consists of four group races for Arab horses. Horses from France won all the trophies almost every year.

Finishing second or third in the "Frenchies" was a good result but not for the future of our breeding and we therefore had to put back "pen to paper" as they say in England !!

BENGALANT Rider P. DEYMONAZ

One day in NEWMARKET By G. DEYMONAZ

Du Soleil Stud

Choice of Arab and Thoroughbred performers :

We therefore decided to invest in a 2 year old filly at Arqana sales called : DORMAH DE BRUGÈRE (DORMANE) and then her dam BALLADE-FOLLE (DJELFOR) who produced DORMADORA and BALLADORE. This purchase revolutionized our breeding, DORMAH DE BRUGÈRE won his first race at three years old in a Gr.2 at Newbury at Dubai Day by beating French representatives (finally!) And then won several races including group races and finished second of DAHESS (AMER) in Turkey in a Gr.1. She then left for breeding at Haras de Thouars at Emmanuel CESSAC and produced a foal MAHESS DU SOLEIL (DAHESS) winner in France and also the Shadwell Arabian Derby Gr.1 in Newmarket ridden by our friend Richard Mullen and trained by Thomas FOURCY.

****Today :**

Evolution of the Herd:

Originally from the French Riviera, I wanted to give the suffix DU SOLEIL STUD to our horses. Like all breeders, we hope to have good products that bear our name globally. BALLADORE took over from his sisters and also produced high quality foals like AMYR DU SOLEIL (Amer) and MY BELLE DU SOLEIL (General). We have invested in mares like THEEBA (AMER x MASSAMARIE) full sister of EBRAZ, RAHAB (AMER x AL ANOOF) full sister of GÉNÉRAL and AL DAHMA, CHALWA DU BREUIL (MAHABB x JAMAA DU BREUIL) half sister of VULCAIN DU CLOS (MONSIEUR AL MAURY).

DORMAH DE BRUGERE

MAHESS DU SOLEIL

THEEBA

Du Soleil Stud

Current Victories:

Despite the COVID pandemic, the year 2020 as 2019 was a good year for Du Soleil Stud, AMYR DU SOLEIL (AMER x BALLADORE) winner of four group races including the 2019 Qatar Arabian Trophy des Poulains Gr.1 and finishing first on the list of the best 3-year-old foals in France, TAREK DU SOLEIL (DAHESSE x MUSIQUE DU SOLEIL) won in the Teste and then in Doha (QA) HH Shk Joaan Bin Hamad Al Thani Trophy. MY BELLE DU SOLEIL (GENERAL x BALLADORE) winner of the test. The year 2021 is shaping up to be pretty good with MUNIR DU SOLEIL (MUNJIZ x RAHAB) winning in Toulouse and recently the Silver Sword in Doha. METHGAL, the first offspring of our mare THEEBA, won in February for the second consecutive year the GR I, Qatar International Cup in Doha.

Jockey trainer choice:

In 2014 during our transition to France we were advised by Paul Basquin to place our first horse in training, MELODIE DU SOLEIL (MUNJIZ x DORMAH DE BRUGERE), with a young trainer Thomas Fourcy. A choice well taken because MELODIE DU SOLEIL won as a beginner. For the choice of jockeys Thomas gets to know our horses better than us by training them every day and therefore, we let him decide which jockey he wants to put on board that suits our horse. He has a very good team and with his reputation he never runs out of jockey. Of course being very professional he always lets us know his choice in advance.

AMYR DU SOLEIL

TAREK DU SOLEIL

MUNIR DU SOLEIL

Du Soleil Stud

International performers:

We have them winning horses and placed in UK, Ireland, Qatar, United Arab Emirates, Iraq, Poland and Turkey.

Orientation of the Thoroughbred Arab workforce:

We have several of our horses boarding at Haras du Saubouas with Paul Basquin. he represents us at Arqana sales for purchases we are considering together. In 2016 he bought from us, at the Saint-Cloud sales on the Arc weekend, RAHAB (Amer) who was full of MUNIR DU SOLEIL. He also bought in private sale a foal called LADY PRINCESS, she won on her first outing at the age of 3 in Toulouse under our colors and was sold following her victory. Last October at Arqana sales we acquired CHALWA DU BREUIL. We also have two mares by MUNJIZ with whom we have beautiful fillies born this year by GAZWAN (Amer).

Breeding situation, choice of lines:

Our breeding is divided between England (14 horses) and France (16 horses). The choice of lines in England is managed by the parents of Lisa, Mr and Mrs Kippen when at the breeding in France located at Haras de Saubouas, it is mainly made by Lisa thanks to her experience and her passion in horse breeding. Arab. His expertise served to fill the position of Breeding manager at Al Shahania Stud for several years. With the help and advices of Paul Basquin, we look every year for the winning combination of each of our mares to cross with a stallion. Once the choice has been made, our mares leave for Haras de Thouars at Anthony Cessac for artificial insemination or for embryo transfer. They then return to boarding school at Haras de Saubouas.

CHALWA DU BREUIL

RAHAB

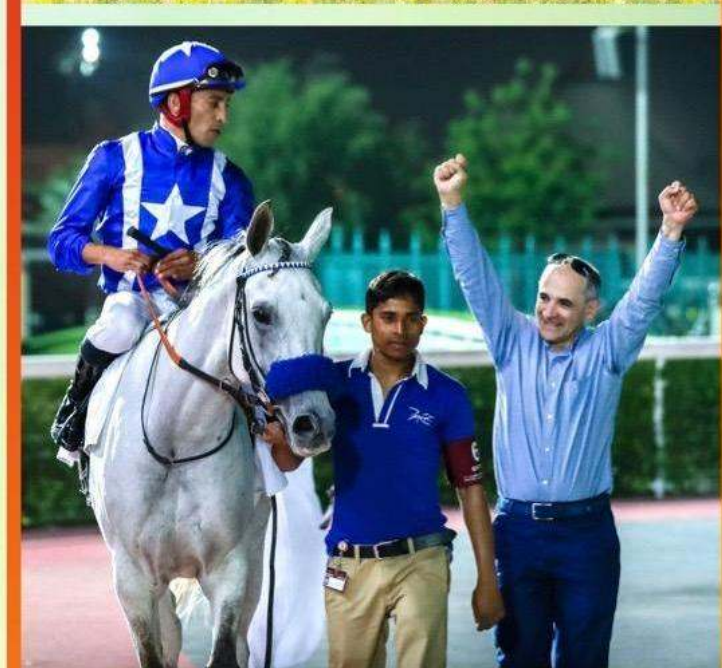

Du Soleil Stud

****Tomorrow**

All breeders dream of producing a group 1 winner, but also of producing a Gr.1 winner with a mare that we have bred, result that we acquired with BALLADORE in 2019 producing AMYR DU SOLEIL (Amer). Our workforce and budget are limited by a few mares, however we will persevere to breed high quality horses so that we can continue to play in the big league. That said, raising a winner regardless of the level of the race is always satisfying.

The situation of Arab horse racing in France is quite stable compared to other European countries. The breeder's premium is a very big asset in France and could perhaps be taken as an example in other countries during international meetings. Relations between France and the Golf countries are very good and the allowances that the sponsors bring to the race funds means that Arabian horse racing in France can remain at a very competitive level.

New restrictions on Arab horse breeding with regard to embryo transfers are underway and about to be officially published, however it will be good if these new laws are respected globally.

AL MAMUN MONLAU

Born in 2008 By MUNJIZ & SALALAH DE MONLAU Breeder . M.A & R. BOURDETTE

After having studied closely MISTER GINOUX and NIESHAN, the third stallion who stands out for his production is AL MAMUN MONLAU. Born at Haras de Monlau where he was bred by Marie-Ange and Robert BOURDETTE. A new confirmation of the good health of the French breeding whose production remains at peak.

The Future of the Arab horse

It will be international or it will not be; the pedigrees of the different competitors speak for themselves. Currently the IFAHR is supposed to regulate breeding and racing, while leaving countries free to apply their own rules. As long as there is not a common guideline for the whole of the sector, it will be difficult to establish a real hierarchy as to the real value of a breeding or a competition. We should have applied the same rules that govern the world of English thoroughbreds who (after 300 years) have been able to erect numerous safeguards to protect their industry.

Breeding

We went from an artisanal mode (managed with a good father), to that of the industrial era (surrogate mothers, embryo transfers), allowing the Stakhanovists of the breeding to put on the market a herd of couriers. which had the effect of destabilizing the market, forgetting the old adage that " what is rare is expensive ".

CARMENSITA (DJOURAS TU x FLASKA), et M. BOISSEUIL, alors entraîneur, (au fond à droite J.M de WATRIGANT) Toujours très tendu avant une course, BOISSEUIL se montrait assez volubile après, c'est le seul entraîneur que je connaisse capable de vous donner l'ordre d'une arrivée, mais après qu'elle ait eu lieu. Sinon M. BOISSEUIL est un véritable homme de cheval et un fin connaisseur en matière de pedigrees.

CARMENSITA a couru pour lui 5 courses (2v 2. 0.) puis continuera chez Mlle KOCH une bonne carrière, réalisant sa meilleure performance à Evry le 26/09/1987, en se classant deuxième de DIDA CHERIE. Au haras CARMENSITA n'a pas tenu toutes ses promesses

EXCLUSIVE EXTRACT FROM THE BOOK BY J.C DI FRANCESCO

The races

After having massively (to the delight of breeders) drawn from French and foreign breeders, the neo-breeders of the Gulf have become producers, owners and sellers ... a fair return on their investment. All over the world, races have received from them subsidies, sponsorships, which have boosted this sector, but for the benefit of our generous donors who have swallowed up races with the armada (from surrogate mothers, etc.), born of their financial power. Also, what a pleasure to see a Halem El Ahlem, Ael Star, Djafar, Messi beat the pawn to all these great champions born in purple. These " Desert Bleds " from families that we were no longer used to seeing in competition, demonstrate that in terms of racing anything is possible. Of course, these victories are only a slight thrill, but they can generate a "butterfly effect".

We all follow with interest the big events taking place in Qatar, UAE, Saudi Arabia, but we can regret that these races are by invitation, because they deprive us of a great moment of sport as we conceive it in Europe. In France, All the races are open, also, the Qatar World Cup which takes place at Longchamp remains for me, the only credible to establish a scale of value.

Duty of memory

The introduction of the oriental horse in France has known many adventures, in Pompadour then in the South-West where will be born and grow this " child of Béarn ", resulting from the selection by the race. If his sporting qualities were recognized, his type will raise many questions from supporters of the oriental horse, in France then abroad (Poland, Tunisia). It is this long history which spans two centuries, that I wanted to relate, taking into account the time, the directives (even the opportunism) of the National Studs, the needs of the army, factors determinants which will generate this French thoroughbred of Arab origin. Long demonized (for ideological and commercial reasons), it is today the basis of many breeders around the world and its influence is also felt in endurance, likely to become this new breeding ground, likely to bring a current of fresh blood in the racing world.

AKBAR : al, né en 1990, par DJELFOR x FANTASIA. Remarquable cheval de course aux UAE, viendra faire la monte en France et produira à son image. Personnellement je ne l'ai jamais utilisé, compte tenu de la présence de DJELFOR dans son pedigree. De sa nombreuse production, DJELFOR n'a laissé qu' AKBAR comme fils supérieur. Deux fils d'AKBAR (SERAPHIN DU PAON et NIESHAN ont débuté la monte en France et j'ai eu recours à eux en espérant qu'il y ait dilution des éléments négatifs. En fait, le

meilleur produit de FANTASIA reste LAARISSA : (6v. et 19 places), mais c'était une anglo-arabe. M. BOISSEUIL vendra la plus part des produits de FANTASIA : KALILA (DJOURAS TU), vendue à Melle KOCH exportée aux UAE, ZULEMA (par DJOURMAN) partira pour la Sardaigne (It), SHEENA (DJELFOR) vendue aux UAE et mère de gagnants. Après sa carrière d'entraîneur, BOISSEUIL deviendra conseiller auprès des courtiers puis manager d'une écurie Emiratie.

EXCLUSIVE EXTRACT FROM THE BOOK BY J.C DI FRANCESCO

I also wanted to pay tribute to these French breeders who remained faithful to this "divine horse" dear to Mr. Mauvy or to Mr. Deleau who, against all odds, defended their conception of the oriental horse. Far from underestimating them, I had recourse to these farms (sometimes confidential) in order to revitalize mine.

Horses and men

We cannot talk about horses without mentioning those who have participated in its development, knowing that we are only one link in a long chain of transmission. It is so that this French epic does not fall into oblivion or is not, in the future, only a parenthesis, or revisited, that I have written this book.

Memory transmitter

An Arab proverb says: "the life of a man is spent on the back of a horse and in the excavation of ancient books". This is what I have devoted my life to for half a century; as the Table of Chapters shows, I covered many topics over 455 pages; also, this book is addressed to all those who share like me this passion for this oriental horse, its history, its genealogy which contributed to create this richness of our breeding having been able to assimilate all the influences, that they come from Orient, Maghreb, Central Europe, Gulf countries etc.

I hope to have shed new light on the genesis of this French thoroughbred of Arab origin. Everyone will be able to find information about them there and can apprehend the future when choosing a stallion or a future broodmare. By passing this book on to future generations, you will in turn become passers-by.

PS: The edition of this book has taken, for technical reasons, a lot of delay. I am waiting for n° 0 from the printer which will allow me to launch the edition.

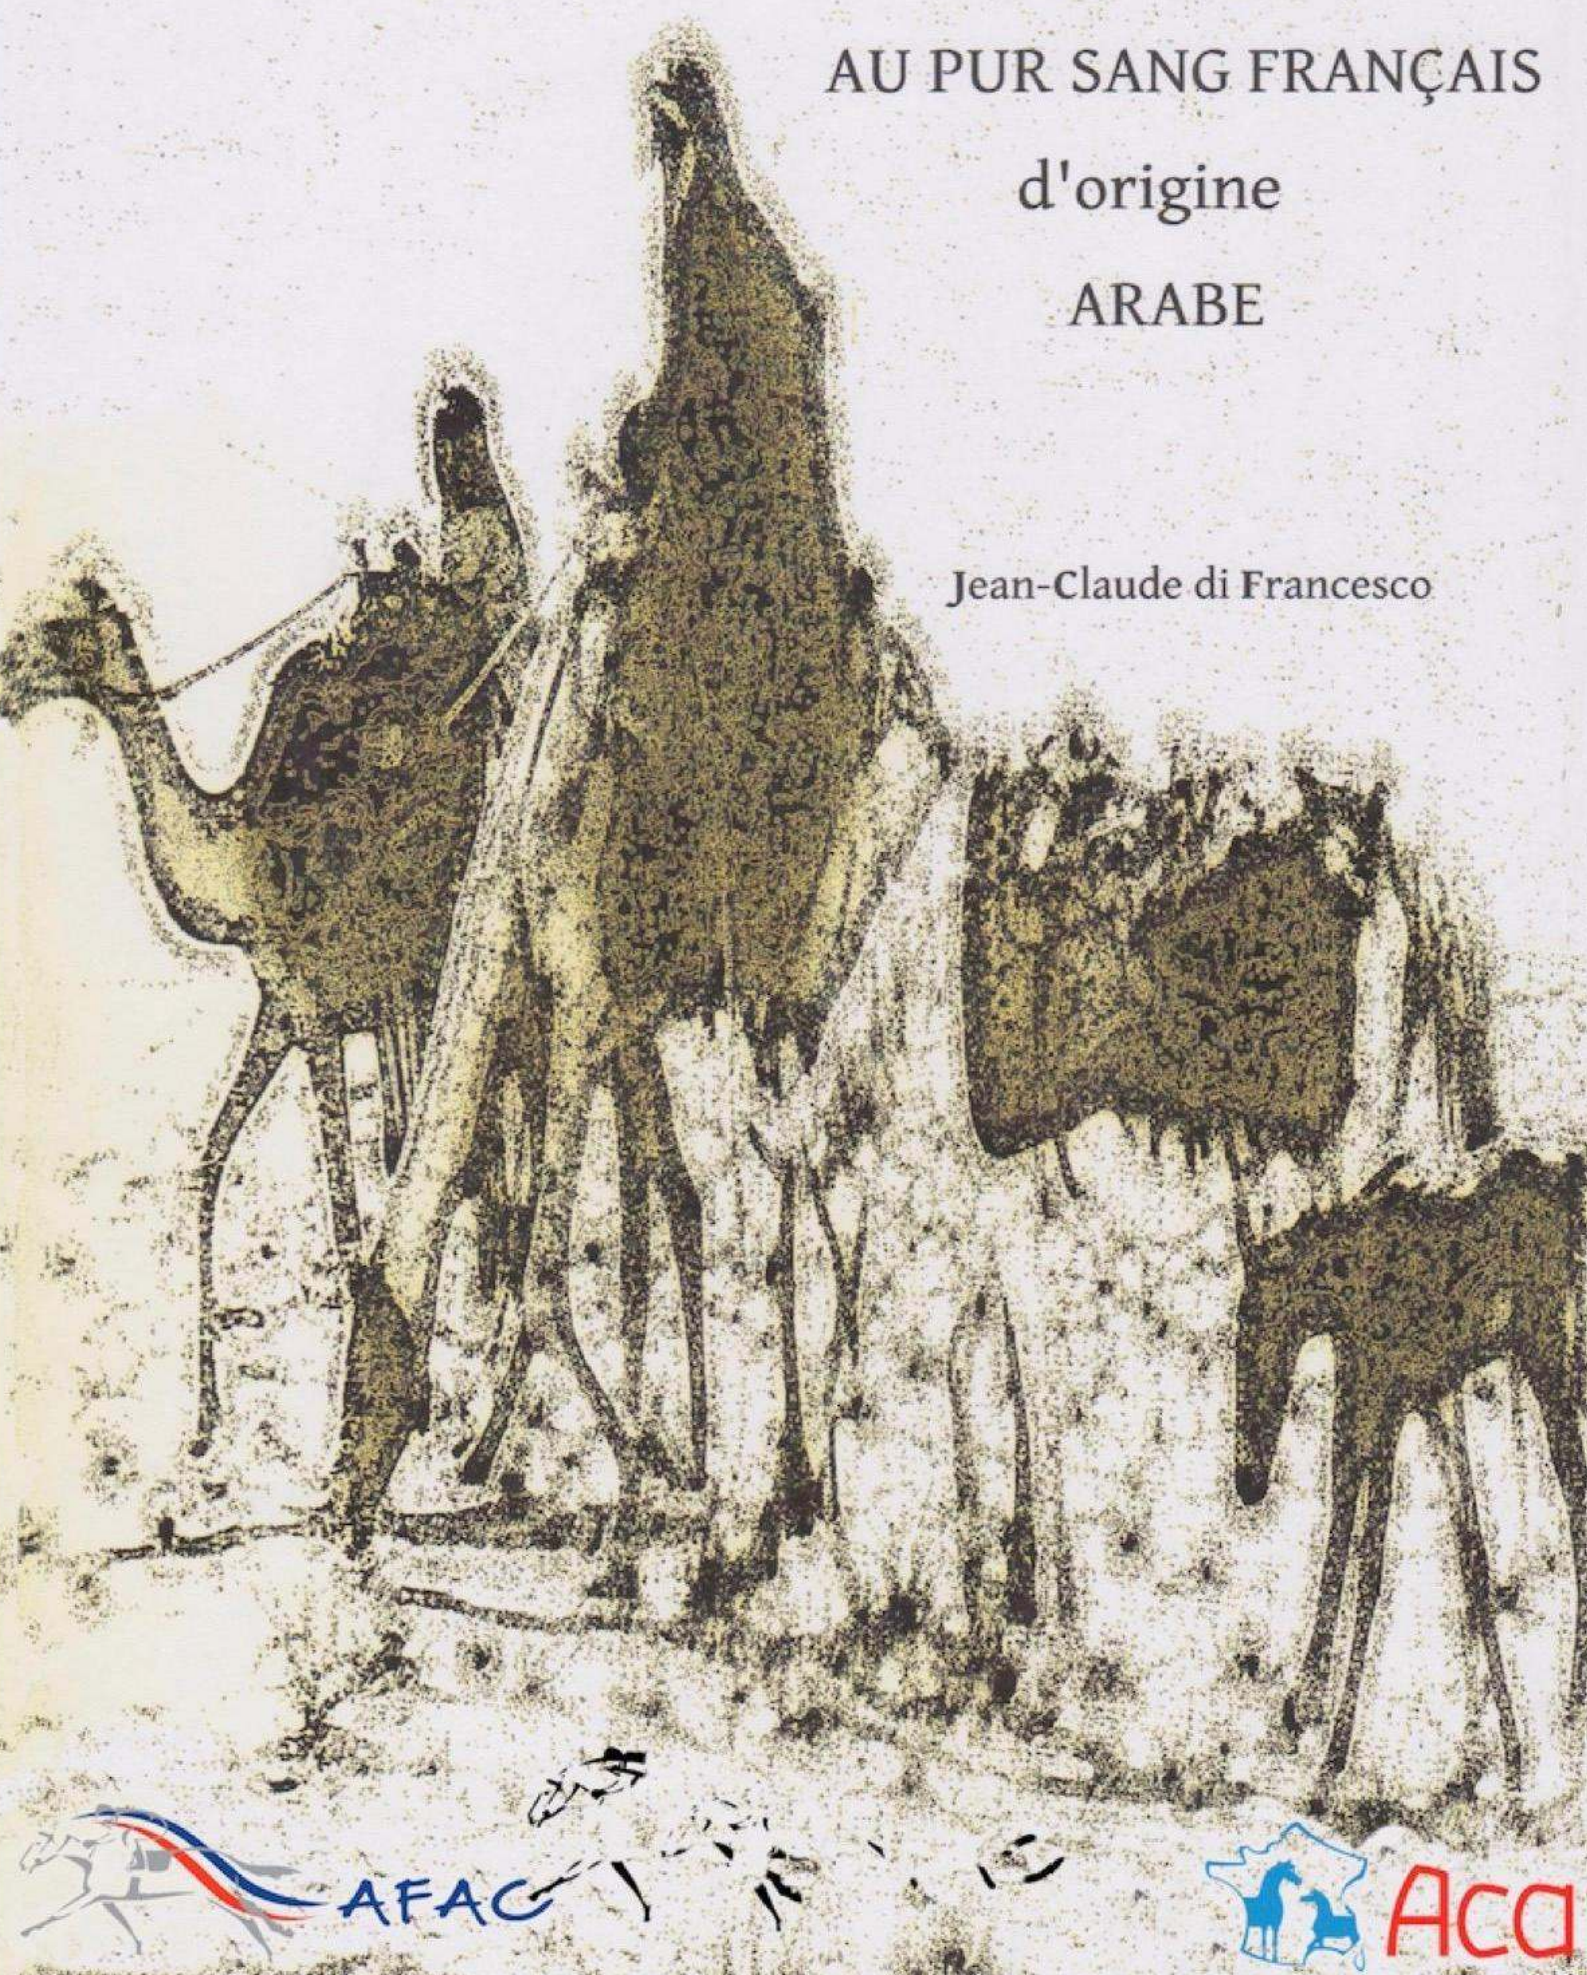

FATMA III (photo AWA). Né en 1952 par DRAGON x FEDORA, demie sœur de FLEUR D'AVRIL. Elle sera une remarquable jument de course, remportant 5 courses et se plaçant 2 fois en 7 sorties. Mais sa production arrivera au moment où les courses réservées aux chevaux Arabes étaient au creux de la vague. Vendue à M. MARCHADIER, (qui fut peut-être son entraîneur et jockey)

Physiotherapy is a non-invasive method for the musculoskeletal system that helps reduce pain, swelling, inflammation, improve mobility, flexibility and prevent recurrence or injury to reach the optimal level of performance. It helps also for the recovery after an effort or after an injury to bring back the horse's mobility and of course it's also very good for their mental.

I always work first with my hands to start the contact with the horse which is very important and to see if I feel anything that needs any treatment. Then with the veterinarians and trainers' collaboration we talk together about the diagnosis and what we can do. Most of the time we do some x-rays or ultrasounds and I figure it out if I need to use some tools as ultrasounds, electrotherapy, laser or deep-tissue/soft tissue mobilisation or anything I can have to help them (some cryotherapy machine, K-Taping are also very good for example).

With SOMOUD Winner of the President Cup 2021

After high school I used to study communication and media as I wanted to work for diplomatic affairs. Then, as I'm a horse rider since I am 5 years old it was a better wish for me to be back to horses. So I started to study animals osteopathy and then I got more interested about physiotherapy so I switched. After my formation I used to work in USA (California and Florida) at some horse show for show jumping but also in Holland when I got the chance to be established at one of the best stable for showjumping. Then I used to live between my country (France) and USA (Florida) where I used to do some small jobs to keep working and being independent while I was looking for a good opportunity to come in UAE to practice my work as it was what I wished since few years. Now I'm here since one year and I'm very glad to work in UAE and doing my job with passion.

A.W.A "Can Equine Physiotherapie apply to races horses

Physiotherapy can apply for all horses from all disciplines. It can apply also for a lot of others animals as dogs, cats or camels for example.

A.W.A " Do you make a difference in the exercise of your profession between thoroughbred and arab horse

I would say yes. For example, in general Arabians have a shorter back than Thoroughbred that can explain that frequently they suffer of « kissing spines ». Almost all the horses's strength comes from the back (the hind quarters) for flat races horses as well as for show jumpers, dressage horses... We have to look on their morphology to understand many things and problems that they can have. And as the morphology is different from an horse to an other it can explain a lot of things.

A.W.A " Do you think Equine Physiotherapie can improve the performances of race horses

Of course it can. As I said for the first question it helps a lot for their mobility. If their muscles and pain are released, they will have a better amplitude and if they have a better amplitude they will have a better engagement and if they have they will gain time on the track.

It's also very good for the horses to be more relax at the races and gain confidence. Yes we can treat foals as well. It can help them for their growth. They often have tendons contractures for example. And then we know them better for their first steps at training also.

With SOMOUD Winner of the President Cup 2021

AT MEYDAN : AL MAKTUUM CHALLENGE R.1

A.W.A “ Is the Equine Physiotherapie compatible with tradional or chemical treatments

If you mean by this question medicine. Its 100% compatible. As I said I work always in collaboration with our veterinarians and trainers to talk about diagnosis and treatment (which also include medicine). I'm very glad to work in a very good atmosphere with all the veterinarians but also trainers, executive manager and all the rest of the team as farriers, grooms and riders. By this way I would like to express how grateful and thankful I am to work for Al Wathba stables and say thank you to HH Sheikh Mansoor Bin Zayed Al Nahyan for giving me this opportunity.

A.W.A “ If this not indiscreet, can you tell us, if you have obtained good results on treated horses and what pathologies they suffered previously

Yes, and I'm very happy when I see their improvement. This is our goal to make them feel better and then we are of course more happy when we see them winning a race. Most frequently horses have back issues (like kissing spines) or legs problems (like high suspensory or fetlocks issues). If I have to quote one I would talk about one lately with who I noticed/felt some pain, sensibility, stiffness on the back line (lumbar area). Then we did an x ray to be sure about the diagnosis. With the veterinarian collaboration we did some work on him regarding the diagnosis and 1-2 days after he won his race. I was very glad to see his performance and that I have helped for that.

The world of endurance has long favored sire lines over dam lines, a mistake of youth certainly due to the amateurism of breeders launched into a new discipline. Yet behind each winner (In purebred, because it is very difficult to want to breed with half-bred) there is a broodmare with her ancestors her production which undeniably demonstrates, like the breeding of Arabian horses from race, that without a good mother there are no good horses. In this perspective, a mare, among other renowned broodmares, deserves our interest: HFIFA, which produced good elements in both flat racing and endurance.

AVRIL 2020

2021 QATAR ARABIAN HORSES EVENTS

Under the patronage of H.H the Amir Sheikh Tamim bin Hamad Al Thani

1st Katara International Arabian Horse Festival

by Fawaz Gamal

Picture Katara Show

No one is unaware that the World Organization of Arabian horses competitions has been severely hit for about one year, for which reason there is no point in further debating something that is a very live issue, in spite of a pandemic that has made things particularly hard, it is a little bit better now, Europe has been stricken by several restrictive measures that have strongly penalized all breeders, by preventing them from showing most of their horse production at shows be they regional, national or international.

Instead, a massive presence of the Arabian Peninsula constituent countries at major international events with their multi-awarded Arabian horses has aroused a little criticism, nevertheless, it must be recognized that without the financial backing of those generous investors, it is most likely to have a sharp fall in breeding production, a reduced number of competitions, little business for commercial agents and only a few functional training centres.

In the program of the Arabian horses competitions organized by Qatar over the years, the rising standard appears greater than that of the neighbouring countries of the Gulf region, keeping its noble reputation but also moving to a higher level of quality, besides an incredible amount of exports of excellent reproducers to every country of the world, Qatari national horse breeding is likewise increasing, applying to breeding schemes.

At the beginning of 2021 the ambitious International Arabian Horse Festival took place in the sumptuous equestrian facilities at Cultural Village Foundation Katara, with considerable funding enabling the organization of a fabulous event, one to remain bewitched and without words.

The **1st Katara International Arabian Horse Festival** held from **February 3rd to 5th 2021** was truly unique particularly when compared to former Qatar International Arabian Horse Title Show, with many changing technical arrangements that could ensure a first-class organization, one that will always make people talk.

Among the owners who registered their best specimens at the show, each was anxiously awaiting confirmation or a whole new revelation of their breeding program all along the performance of the classes eligible for the Finals, this year considered as being the best of the best.

Beside the competition, the magnificent setting of **Katara Cultural Village** welcomed various related cultural and educational activities: an exhibition of equine postal stamps, a horse & poetry exhibition by Mohamed al-Amri, a photography exhibition by Omar al-Hammadi, a photography exhibition by Shuaa al-Ghanim, an art exhibition in collaboration with al-Shaqab, the al-Aseel Exhibition by Sheikh Saoud Bin Abdulaziz al-Thani as well as an auction of the horses participating in the Title Show, plenty of kiosks.

A panel of **eleven international judges** who observed, dissected and analysed by Mr. Santoro (Italy); Mr. Aragno (Italy); Mr. Beste (Germany); Mr. Lieblang (U.s.a); Mr. Bialobok (Poland); Mrs. Norden (Sweden); Mrs. Stojanowska (Poland); Mr. Hamza (Egypt); Ms. Weidner (Germany); Mr. Reisel (Netherlands) and Mr. Tarczynski (Poland), we must say that their disciplined approach on horses during the course of the event was exemplary.

The **1st Katara International Arabian Horse Festival** drew to a close with a solemn award ceremony and an exceptional pyrotechnic show that lasted more than thirty minutes.

In conclusion, a blaze of emotions, some tears of joy, many souvenir photos with lit ***dhows** on the back-ground, on an internal stretch of the sea with mysterious reflections and well-lit drones dotting the sky, it will not be easy to live same dream elsewhere...

Yearling Fillies Championship

- Gold Medal** **Jalya AT**, bay 2020 by Mahder al-Jamal & Jayda
Owner al-Thumama Stud

Owner al-Shahaniya Stud
- Bronze Medal** **Fadi al-Shaqab**, bay 2008 by Besson Carol & Abha Myra
Owner al-Shaqab

Remarks

Never before in the history of arabian horses competitions could be observed a **prize-money of 2,951,9265 Euros** that for most of its part was re-distributed in sub-premiums among locals, beneficiaries of the events were also the handlers who flocked from all parts of the world to compete for a generous bonus.

The predominance of Qatar on the world breeding stage did not start yesterday, it goes long back in time, for sure its prestige has been further enhanced by the sponsorship of the ***Prix de l'Arc de Triomphe de Paris- Longchamp, a Horse Racing** event that is a must for **Thouroughbred and Arabian horses**.

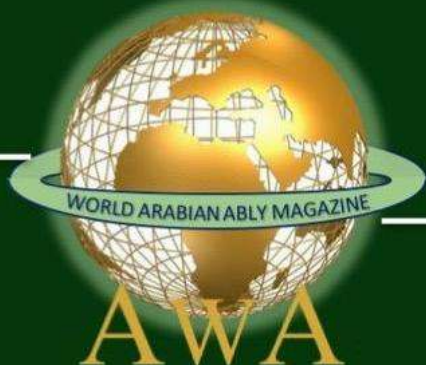

In the current international scenario, the running of the *** Dubai Breeder's Cup** every year in March in Dubai continues to attract most prominent owners of racehorses from all over the world, with a prize-money of several million dollars being awarded to the winners of each class, giving a substantial boost to the sector.

It is about time to also reflect together on the next steps towards a revamped, future edition of the **Arabian World Competition** like it was first created in Paris 1980, perhaps, with a new title and an every-two-year program period instead of one, in the countries of the **Arabian Peninsula** or even in **Maghreb** given that all of them can legitimately claim to be one of the cradles of the breed born and bred in the desert.

**** May the beauty of the Arabian Asil horse rise from the ashes***

In addition, to continue the efforts made in 2021 in Qatar, I received the information that the **Katara International Arabian Horse Show** during the next five years, a great promotion in the middle east for the breed with hopefully a greater opening of international participants.
